

COMPANY PROFILE

Who are we?

Nvumabaranda Healthcare is an established Healthcare Company providing affordable and accessible health services to its growing employees and clients. It was established in 2019 as a subsidiary of Nvumabaranda group of companies by the Founder & CEO, Mr Kennedy Nduna.

The company has four accredited hospitals in Kalumbila, Lumwana, Solwezi and Ndola plus one clinic in Kisasa (Kalumbila) as well as one outreach site in Kalumbila mine (FQM).

It's licensed by health professions board of Zambia (HPCZ) and meets its statutory obligations. The company is accredited with NHIMA, MEDLINK, PRUDENTIAL and ONE LIFE also have Medical Schemes with over 10 mine contractors under our hospital scheme.

M MISSION STATEMENT

Provide quality, professional and affordable healthcare in a comfortable and caring environment tailoring our treatment protocols to meet varying individual needs.

V VISION STATEMENT

To ensure accessible and affordable quality health care by compassionate and competent medical professionals in a safe working environment.

OUR SCOPE

We focus on offering a wide range of consistently high-quality and up-to-date medical services that enables us to improve the health of the clients, impact people's lives by putting the patient first, adhering to an uncompromising code of ethics, and continuing to learn and work in a constant effort to improve our skills, programs, and outcomes.

*As a healthcare provider, we aspire to be the hospital of choice in Zambia and recognized for having the most satisfied patients, and the best possible clinical outcomes
With the best Medical Professionals*

Our Hospitals facilities as per location:

Nvumabaranda Healthcare, Kalumbila

This is the headquarters of all our healthcare facilities located in Kalumbila District within Kalumbila mine, off airport road.

Nvumabaranda Healthcare, Lumwana

This is our second hospital established within the fall of 2022, it is located in Kalumbila District at Lumwana R1 off Mwinilunga road just few kilometers away from Manyama.

Nvumabaranda Healthcare, Solwezi

Our third hospital which was established within the third quarter of the year 2023 is located at Weigh Bridge Area in Solwezi.

Nvumabaranda Clinic Kisasa

We also have a clinic which just like all our hospitals offers a variety of services. The clinic is located in Kalumbila district just off Mwinilunga road

Dental Department

The dental clinic offers a full range of dental services for adults and children, ranging from routine dental care to the latest methods in restorative dentistry.

The unit is manned by highly experienced dental and maxillofacial surgeons who work closely with other specialists at the hospital to provide pre-operative screening for patients with medical conditions affected by dental health.

Operations routinely performed include basic dental care, cosmetic dentistry, restorative dentistry, tooth extraction, management of traumatic injuries, and root canal treatment.

Laboratory

The hospital has an advanced laboratory whose mission is to provide accurate results that enable timely diagnosis.

The department boasts of modern high standard equipment used to run a variety of procedures covering all routine and specialized tests. Our lab runs 24hrs a day with results provided in the shortest turn-around-time.

Screening/Consultation rooms

Our consultation rooms are a welcoming and inclusive environment where the doctor discusses a patient's healthcare issues and personal treatment history. Our consultation rooms are balanced open, well-lit space with privacy.

Patient satisfaction is key to a hospital's success, a lot positive experience is built in the consulting rooms.

Pharmacy

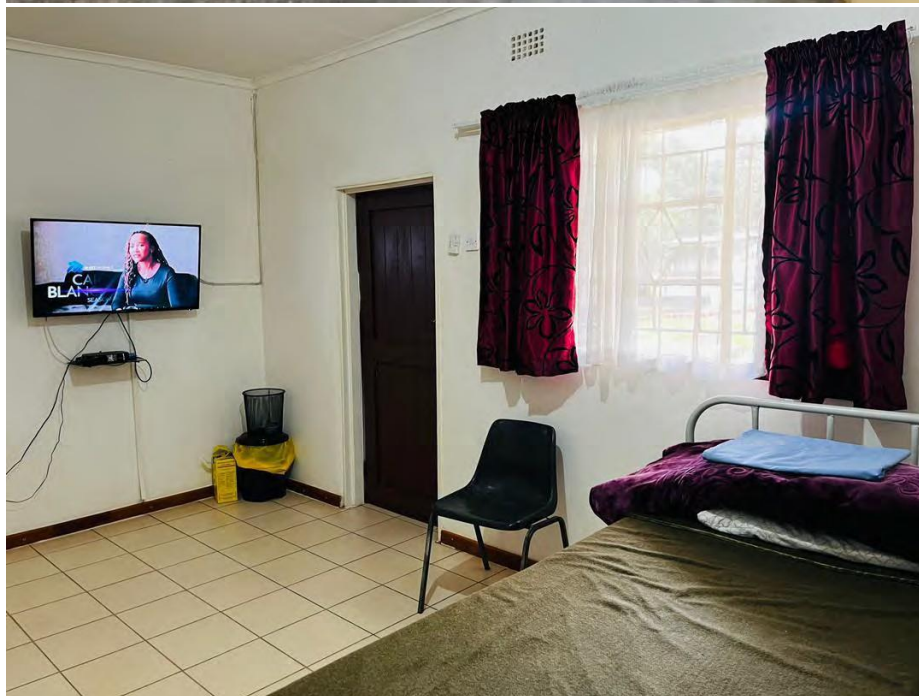

We offer a 24 hr. Pharmacy services. Our pharmacy department has the capacity and ability to prepare different drug formulations for children to meet special needs. It is well stocked with a wide range of affordable, quality products.

Radiology Department

Our Radiology department has a modern 3D/4D Ultra-sound machine that can do Doppler, Obstetrics and Echo (ECHO) Cardiograms. The Unit has a digital X-Ray machine that produces quality images.

Inpatient Department

Our healthcare facilities are equipped with enough bed capacity offering a broad range of services 24 hours a day. The services include: - Medical, Pediatric, and Maternity unit. The wards are all equipped with special beds that enhance comfort and quick recovery for patients. We have proficient personnel who manage the In-Patient Unit.

MCH Department

The unit provides around-the-clock care to newborn babies. It has highly trained healthcare personnel and high-standard modern equipment to provide your baby with the best possible care. The team tirelessly provides quality care to newborn babies which includes meeting the babies' comfort needs and improving lights or procedures. We ensure maximum benefit and good outcomes for our premature babies including shorter hospital stays, improved weight gain, better feeding, and enhanced parent-infant bond.
